Lab 2- HTML Links and Lists
Chapters 1 through 4

February 26, 2020

Create a web page that looks like the following page titled "The United States".

Name the file lab2.html

Remember to include title tag.

For the first section you can use an H3 or H4 tags. Play around and see what looks good.

You are also going to create a second page named lab2-facts.html . You can see that page below also. You will have a link that goes from lab2.html to lab2-facts.html.

Here is how to display the map at the top as we have not covered images yet.

<center><img src='images/us-map.png'></center>

The famous people section should use the details and summary tag.

Put an anchor tag on the Kid Cudi section of interesting facts and use that in the link to go to the Kid Cudi section from the main page.

Save the images in the zip file to your images folder. The image youtube-superpower.png will link to a video on YouTube. Put a link on the YouTube image so it goes to YouTube when you click on it. Remember to use target='_blank' so it opens in a new tab or window. Here is the link: https://youtu.be/BShvYeyMm_Y

Save the zip file in the images folder. Link to that zip file in the line about downloading images

 Add 3 or 4 <br/> tags to the bottom of both pages and then create a footer like the one at the bottom of this page. Use a <hr/> tag and the special copyright symbol ©   Remember you can use the <center> tag for now to center things.

The United States

20TH CENTURY USA

In the early 20th century three new states were admitted to the union, Oklahoma in 1907 and Arizona and New Mexico in 1912.

Also in the early 20th century the USA built the Panama Canal. President Theodore Roosevelt decided to build a canal across Panama in 1902. In 1903 the USA leased a 6-mile wide canal zone for 99 years. The canal was built in the years 1904-1914.

THE USA IN THE FIRST WORLD WAR

When the First World War began in 1914 the USA remained neutral. However, Germany alienated American public opinion on 7 May 1915 when a German submarine sank the Cunard liner Lusitania, without warning. Among the 1,198 people killed were 128 Americans. Nevertheless, Woodrow Wilson fought the 1916 election partly on the slogan 'he kept us out of the war'.

On 6 April 1917 the USA declared war on Germany. America had a strong navy but a relatively small army. However, conscription was introduced and the USA began to raise a huge army. The first US troops were sent to France in June 1917, but it was the spring of 1918 before large numbers arrived. By September the US commander General John J. Pershing was able to begin an offensive against the Germans. In September 1918 US troops destroyed a German salient at St Mihiel. They then launched an attack on the Meuse-Argonne area. German troops were pushed back until Germany surrendered on 11 November 1918.

THE 1920s

For most people (not all) the 1920s were a time of prosperity. In 1912 only 16% of homes had electric light. By 1927 it had risen to 63%. Electrical appliances became common, refrigerators, irons and fans. Radios also became common. By 1930 40% of homes had one. Cars also became common in the 1920s. Americans enjoyed the highest standard of living in the world.

Interesting Facts

[Map image goes here]

The United States of America, commonly called the United States (US, or USA, or America), consists of fifty states and a federal district. The 48 contiguous states and the federal district of Washington, D.C. are positioned in central North America between Canada and Mexico.

The state of Alaska is west of Canada and east of Russia across the Bering Strait, and the state of Hawaii is in the mid-North Pacific. The country also has five populated and nine unpopulated territories in the Pacific and the Caribbean.

At 3.79 million square miles (9.83 million km2) and with around 315 million people, the United States is the third-largest country by total area and the third largest by both land area and population.

Famous people from Ohio

Neil Amrmstrong

Neil Armstrong was an American astronaut and the first person to walk on the Moon. Trained as an aeronautical engineer, he served as a test pilot before being selected as an astronaut. Interestingly, all his accomplishments would not have happened had Dick Day, not placed his application for astronaut with the ones that arrived on time; Armstrong's application had arrived about a week after the deadline. Armstrong's first mission into the space was as command pilot of Gemini 8 in 1966. With this, he became the first civilian to fly in space. His second and last space flight occurred three years later in 1969 when he joined Aldrin and Collins aboard Apollo 11 for NASA's first manned mission to moon. Armstrong spent about two hours walking on the moon surface, collecting samples and conducting experiments.

Steven Spielberg

Steven Spielberg is an Academy Award-winning filmmaker, director and producer known for some of the biggest Hollywood blockbusters of the late 20th Century and early 21st Century. Notorious as one of the biggest names in Hollywood, he is regarded as one of the most influential directors in the history of movie making. Having worked in the movie industry for more than four decades, Spielberg has contributed to films of many different themes and genres, including science-fiction and adventure as well historical features. This versatility has allowed him to continue steady work on successful films throughout his life. He has been nominated and awarded with a great deal of achievements throughout his career, as his work has been able to reach individuals of many different backgrounds and interests. His films have set box office records, setting the standards for what it means to be a blockbuster movie. The film maker revolutionized the genre of sci-fi with the special effects included in movies such as the Jurassic Park and E.T. the Extra Terrestrial.

Kid Cudi

Kid Cudi is an American rapper and actor best known for his 'new wave' of rap music which has inspired a lot of other artists, including Kanye West. He entered the American hip hop and rap music scene with his first mixtape, 'A Kid Named Cudi,' in 2008.' By then, Kanye West had become one of the most respected names in rap. Kanye listened to Kid's music and was immediately driven to get in touch with him. Soon, Kanye signed Kid for his label, 'GOOD Music,' and this gave a major boost to Kid's career. Kid began as a rapper, but also ventured into song-writing, music production, video direction, and acting, acing each aspect of the entertainment industry. In 2008, he released his first single, 'Day 'n' Nite,' and announced his grand arrival, with a spot among the top five tracks on the 'Billboard' charts.
